(a) any measures considered appropriate to ensure that the working facilities provided for the media are fully adequate to meet present and future needs and, in this context, to consult with the Bureau of the Committee, Spokespersons of the regional groups, Group of 77 and China, in relation to the implementation of any significant measures in this regard;

C. Call upon the Secretary-General to submit a detailed and comprehensive report on his plan of integrating United Nations information centres with other United Nations offices, while maintaining the functional autonomy of the United Nations information centres and emphasizing that they should be fully operational, as provided for in relevant resolutions, to the fifteenth session of the Committee on Information for its consideration of the different options available in this regard. In this context, consultation should take place on this matter through the informal mechanism composed of the Bureau of the Committee on Information and the Spokespersons of regional groups, Group of 77 and China, as was established in paragraph 1 (s) of resolution 46/73 of 11 December 1991;

F. Call on the Secretary-General to implement fully its recommendations contained in General Assembly resolution 46/73 B, including subparagraphs "l" and "m" of paragraph 1, regarding the establishment of a United Nations information centre in Sanaa, Yemen, as well as the reactivation of the United Nations information centre in Tehran and the enhancing of the information centres in Dar es Salaam, Dhaka and Bujumbura;

G. Call upon the Secretary-General, as for the forty-seventh session of the General Assembly, to make every effort as a matter of particular urgency to create conditions and to make them more conducive to achieving parity by appropriate utilization of existing equipment in the press coverage of meetings in English and French;

H. Decide, as of its forty-seventh session, the publication in the Arabic and Spanish languages, after each of its annual sessions, of the press release containing its resolutions and decisions it adopted and the results of the voting through reallocation of resources from the budget of the Department of Public Information.

B. Activities by which the request would be implemented

2. Should the draft resolution be adopted by the General Assembly, the Secretary-General would:

(a) Ensure that the Department of Public Information continues to disseminate information about the activities of the United Nations in coordination with the information services of other relevant agencies in accordance with the medium-term plan and the programme budget;

(b) Provide an assessment to the Committee on Information at its fifteenth session on the working facilities provided to the media;

(c) Submit a report to the fifteenth session of the Committee on Information on the plan for integrating United Nations information centres with other United Nations offices;

(d) Study ways and means for redressing imbalances in the allocation of resources between information centres around the world;

(e) Continue consultations with the Government of Poland with a view of establishing United Nations component in Warsaw;

(f) Take appropriate measures to implement General Assembly resolution 46/73;

(g) Commence, on a phased basis, provision in conference rooms at Headquarters of the necessary furniture and equipment with a view to achieving parity in the press coverage meetings of English and French;

(h) Publish the press release, in the Arabic and Spanish languages, of the resolutions and decisions of the General Assembly, including the results of the voting.

C. Additional requirements at full cost

3. The activities mentioned in paragraphs 1.A and 1.F above reflect the approved programme of work under sections 31 and 32 of the 1992-1993 programme budget, and no additional resources would be required for their implementation.

4. With regard to the reports and assessments referred to in paragraphs 1.B, 1.C and 1.D above, it is anticipated that no additional appropriations would be required for their production as they relate to the regular programme of activities of the Programme Evaluation and Communications Research Unit of DPI.

5. With regard to the request referred to in paragraph 1.E above, it is not possible to determine, at this stage, the exact requirements, if any, for establishing a United Nations information component in Warsaw, since those will largely depend on the exact nature of this component and on the host government input. Additional information in this regard would be provided to the General Assembly in the context of its review of the draft resolution.

6. On a full-cost basis, the additional requirements arising from the request referred to in paragraphs 1.G and 1.H above are estimated at $107,900 as follows:

(a) Equipment for French press officers:

Full provision is only made for coverage in English in the conference rooms at Headquarters. Equal provision for coverage in French would in a first phase entail the following additional costs in 1992-1993:

	$
Furniture (15 tables)	12 000
Wiring	1 500
Installation	1 000
Computer terminals (10 PCs)	20 000
Subtotal (a)	34 500

(b) Press release on the General Assembly resolutions in Arabic and Spanish

The estimated requirements at full cost for producing the Arabic and Spanish versions of the compendium, on the same basis as the French version are as follows:

Translation costs	28 000
Typing	30 400
Printing	15 000
Subtotal (b)	73 400
Total (a) + (b)	107 900

D. Potential for absorption

7. Should the General Assembly adopt the draft resolution, efforts would be made to absorb the estimated cost of phased measures to achieve parity in the press coverage of meetings in English and French from existing appropriations under sections 31 ($20,000) and 33 ($14,500) of the programme budget for the biennium 1992-1993.

8. With regard to the request for the publication of the press release containing the resolutions and decisions adopted by the General Assembly in Arabic and Spanish as of the forty-seventh session of the General Assembly, it is estimated that this could not be met through reallocation of resources from the budget of DPI unless activities of lower priority were to be identified and postponed to the next biennium. Under these circumstances the Committee on Information may wish to agree to defer the implementation of this request to the 1994-1995 biennium.
